

## Turning manufacturing waste into profit Agenda

8:30 Registration opens  
9:00 Open and introduction

### Keynote speaker – Bruce Herbert, Coca-Cola Amatil

Coca-Cola Amatil has taken an aggressive approach to investment in Manufacturing and Logistics in Australia through Project Zero. Bruce Herbert will outline how, from small beginnings this project is now eliminating thousands of tons of packaging material and millions of dollars in costs while simultaneously upgrading their facilities to the latest, world class technology.

### Speed networking session

9:50 **Technology presentations**

**Colin Barker**, Waste Management Association of Australia  
Learn how to use your manufacturing waste to create profit opportunities for your business.

**Frank Klostermann**, Thiess Services Pty Ltd  
Ever wondered about waste to energy technology and how this can apply to your business?

10:15 **Open networking and morning tea**

10:55 **Case study presentations**

**Lisa Erhart**, Dynamic Eco-Solutions on behalf of Beaulieu Pacific  
Learn how recycling your waste streams and procuring recycled materials into the design of your product can achieve financial advantage and ultimately heavily reduce your waste output.

**Franz Braun**, Furniture Concepts  
Learn how capturing dust and automating the tracking of your product off cuts can help to reduce your waste disposal and labour costs.
