- **The six steps to ecoBiz**
- **Application form**

About ecoBiz

ecoBiz is an EPA partnership program that helps Queensland businesses adopt resource-efficient practices that are good for the financial bottom line as well as for the environment.

ecoBiz helps companies find ways to improve how they do business. A range of tools and guides is available to help Queensland businesses invest, compete and profit sustainably.

By addressing water, energy and materials management and consumption businesses can reduce costs and eliminate waste. They may also become eligible for ecoBiz rebates to support eco-efficiency initiatives.

Through ecoBiz your business can:

- Achieve **savings** through
 - › more efficient use of energy, materials and water
 - › reduced waste disposal
 - › better productivity
 - › improved staff morale
 - › risk minimisation.
- Gain **competitive advantage** by meeting
 - › community expectations for better environmental performance
 - › demand for 'environmentally friendly' goods and services
 - › supply chain expectations based on international standards.
- Access **rebates** to implement improvements.

The 6 steps to ecoBiz

step 1	JOIN Complete the ecoBiz application form. You will be provided with an ecoBiz toolbox to guide you through the remaining five steps.
step 2	ASSESS Complete the baseline assessment to determine your resource consumption (materials, energy and water).
step 3	SURVEY Conduct a site survey of your business using the tools provided.
step 4	PLAN Develop an ecoBiz action plan that sets out how you are going to make your business more eco-efficient.
step 5	IMPLEMENT Start implementing your ecoBiz action plan. This may simply mean a new way of doing things, or it may require changing a process or investing in new technology.
step 6	RE-ASSESS Review your progress by completing a re-assessment which you can then compare with your baseline assessment. You may now be eligible to become an ecoBiz partner.

ecoBiz Rebates

ecoBiz rebates are designed to help participating businesses implement eco-efficiency improvements. Rebates are available to businesses that clearly demonstrate the benefits of conserving, reusing and recycling resources, energy and water to deliver financial, environmental and social benefit to the business, the wider community and the state.

Conditions for rebates are set out in detail in the **ecoBiz** toolbox.

“The ecoBiz program has been so easy to use. It is refreshing to deal with a program so willing to help small business. The ecoBiz process has been excellent.”

Scott Garrett, Director,
Southport Steam Laundry

“What ecoBiz has done is help examine internal ways in which we could improve efficiency as well as help the environment and increase profitability.”

Brett Shepherd, Managing
Director, **Colorscreen Print**

ecoBiz

Queensland

I would like to join the **ecoBiz** program. To the best of my knowledge the business is compliant with all Local, State and Commonwealth regulatory requirements.

The following Environmental Licences and Approvals are held under Queensland Legislation by the business. I acknowledge that the **ecoBiz** team may contact the authorities listed below to confirm our compliance status.

Environmental Licence / Approval Details			Contact Details for Regulating Authority	
Activity	Regulatory Authority	Licence/Approval Number	Name of officer	Phone number

I understand that the above business must remain compliant with relevant State, Local and Commonwealth government legislation to remain in the **ecoBiz** program. Our involvement with **ecoBiz** can be terminated if the business undertakes any activities that could bring the government into disrepute.

I would like to receive the following Please tick:

- ecoBiz** bulletin (by email)
 Compass Magazine (by email)
 Compass Magazine (by post)
 Notifications about sustainability events, and awards organised by the EPA
 Details about other sustainability initiatives organised by the EPA.

I am participating in (Please Tick where appropriate):

- National packaging covenant (national waste program)
