

Attachment 1: Overview of overland flow regulation by water resource plan

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997</i> (IPA)
Border Rivers	WRP approved (04-12-03) OLF regulated under Division 5, sections 32 -37 of WRP	Existing works that take OLF must be ‘notified’ (s.34) by 1 July 2005	Specified under s.32 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • associated with ‘notified’ works • under an authorisation • unallocated water granted under a ROP • associated with an Environmentally Relevant Activity (ERA) • contaminated agricultural runoff. 	CE must grant licence to replace authorisation where satisfied there is a likely increase in the take of OLF (s.35) These licenses are granted or amended under a process specified in a ROP (s.36)	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.37) and works that take stock or domestic water which are self-assessable

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Burdekin Basin	WRP approved (02-08-2007) OLF regulated under Division 8, sections 79-81 of WRP	Existing works that take OLF must be notified by (s.80) by 02-08-2008)	Specified under s.79 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • using works that are no more than 250ML • associated with ‘notified’ works • under an authorisation • associated with an Environmentally Relevant Activity (ERA) • contaminated agricultural runoff. 	CE may grant licence to replace authorisation where satisfied likely increase in take (s.81) These licences are granted or amended under a ROP process (s.81)	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.50) and the following which are self-assessable: <ul style="list-style-type: none"> • works that take stock or domestic water • for works of not more than 250ML • associated with an Environmentally Relevant Activity (ERA)

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Calliope River Basin	WRP approved (5-12-06) OLF regulated under Division 3, sections 13-18 of WRP	Existing works that take OLF must be ‘notified’ by 15 December 2007	Specified under s.13 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • for another purpose, other than ponded pasture or water spreading of no more than 5ML • associated with ‘notified’ works • under an authorisation • unallocated water granted under a ROP • associated with an Environmentally Relevant Activity (ERA) • not more than the amount necessary to divert the water around a mine site • contaminated agricultural runoff. 	CE <i>may</i> grant licence to replace authorisation where satisfied likely increase in take (s.28E) These licences are granted or amended under a ROP process (s.28F)	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.50). and the following which are self-assessable: <ul style="list-style-type: none"> • works that take stock or domestic water • associated with an ERA • for another purpose other than ponded pasture or water spreading of no more than 5ML

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997</i> (IPA)
Condamine-Balonne	WRP approved (05-08-04) OLF regulated under Division 5, sections 44–50 of the WRP	Existing works that take OLF must be ‘notified’ by 1 February 2006 (s.46)	Specified under s.44 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • associated with notified works • under an authorisation • associated with an Environmentally Relevant Activity (ERA) • contaminated agricultural runoff. 	CE may grant licence to replace authorisation where satisfied likely increase in take (s.47) These licenses are granted or amended under a ROP process (s.48) with particular requirements provided by s.49	Works that take OLF are assessable development under the IPA except for works that take stock or domestic water which are self assessable and repair and maintenance works (s.50)

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Fitzroy ¹	WRP approved (23-12-99) and amended (22-08-05) to regulate OLF OLF regulated under Division 4, sections 28A–28F of WRP	Existing works must be ‘notified’ by 22 July 2006(s.28D)	Specified under s.28A of the WRP: <ul style="list-style-type: none"> • stock or domestic • associated with notified works; • using works of no more than 5ML • under an authorisation • unallocated water granted under a ROP • associated with an ERA • contaminated agricultural runoff. 	CE may grant licence to replace authorisation where satisfied likely increase in take (s.28E) These licenses are granted or amended under a ROP process (s.28F)	Works that take OLF are assessable development under the IPA except for repair and maintenance works (28G) and the following which are self-assessable: <ul style="list-style-type: none"> • works for stock or domestic purposes • associated with an ERA • or that are no more than 5ML storages

¹ Note: particular arrangement for mining and petroleum activities—able to continue taking OLF until unallocated OLF is released via a ROP process.

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Georgina-Diamantina	WRP approved (05-08-04) OLF regulated under Division 2, sections 10–15 of WRP	Existing works are to be ‘notified’ by 6 August 2005 (s.12) <i>Note: Special provision – s.11 - considerations when CE is making decisions under Water Act or IPA.</i>	Specified under s.10 of the WRP: <ul style="list-style-type: none"> • stock or domestic • associated with notified works • under an authorisation • unallocated water granted under a ROP • associated with an ERA • contaminated agricultural runoff. 	CE must grant licence to replace authorisation where satisfied likely increase in take (s.13) These licenses are granted or amended under a ROP process (s.14)	Works that take OLF are assessable development under the IPA except for works that take stock or domestic water which are self assessable and repair and maintenance works (s.15)

Mitchell	WRP approved (02-11-2007) OLF regulated under Division 5, sections 54-57 of WRP	Existing works that take OLF must be notified by (s.55) by 02-08-2008)	Specified under s.54 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • using works that are no more than 250ML • associated with ‘notified’ works • under an authorisation • associated with an Environmentally Relevant Activity (ERA) • contaminated agricultural runoff. 	CE may grant licence to replace authorisation where satisfied likely increase in take (s.56) These licences are granted or amended under a ROP process.	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.57).and the following which are self-assessable: <ul style="list-style-type: none"> • works that take stock or domestic water • for works of not more than 250ML • associated with an Environmentally Relevant Activity (ERA)

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Moonie	WRP approved (04-12-03) OLF regulated under Division 5, sections 32-37 of WRP	Existing works are to be ‘notified’ by 6 August 2005 (s.34) <i>Note: Special provision – s.33 - considerations when CE is making decisions under Water Act or IPA.</i>	Specified under s.32 of the WRP: <ul style="list-style-type: none"> • stock or domestic • associated with notified works • under an authorisation • unallocated water granted under a ROP • associated with an ERA* • contaminated agricultural runoff. 	CE must grant licence to replace authorisation where satisfied likely increase in take (s.35) Licenses are granted or amended under a ROP process (s.36)	Works that take OLF are assessable development under the IPA except for works that take stock or domestic water which are self assessable and repair and maintenance works (s.37)

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Moreton	WRP approved 16 March 07 OLF regulated under Part 7	No notification process. The owner may continue taking OLF water using existing or replacement works under s.86	Specified under s.85 of the WRP: <ul style="list-style-type: none"> • for stock or domestic purposes • using works of no more than 5ML • for water sensitive design within the meaning of the SEQ regional plan for developments in urban areas • under an authorisation • associated with an Environmentally Relevant Activity (ERA) • contaminated agricultural runoff • Existing OLF work or replacement that does not increase take. 	No licences except under s.87 under a ROP that allows you to grant a water licence to replace the authority	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.15) and the following which are self-assessable.: <ul style="list-style-type: none"> • works that take stock or domestic water • associated with an ERA or • that take not more than 5ML

Water Resource Plan (WRP) area	Planning progress	Regulation of “existing works”	Types of OLF allowed to be taken under the WRP	Where a water licence is required	Relationship with <i>Integrated Planning Act 1997 (IPA)</i>
Warrego Paroo Bulloo Nebine	WRP approved (04-12-03) OLF regulated under Division 5, sections 32-37 of WRP	Existing works are to be ‘notified’ by 1 July 2005 (s.34) Note: Special provision – s.33 considerations when CE is making decisions under Water Act or IPA	Specified under s.32 of the WRP: <ul style="list-style-type: none"> • stock or domestic • associated with notified works • under an authorisation • unallocated water granted under a ROP • associated with an ERA* • taken for rehabilitating degraded land • contaminated agricultural runoff. 	CE must grant licence to replace authorisation where satisfied likely increase in take (s.35) Licenses are granted or amended under a ROP process (s.36)	Works that take OLF are assessable development under the IPA except for repair and maintenance works (s.37) and works that take stock or domestic water which are self-assessable
