Contents

1	Introduction	1
1.1	Dam Safety	1
1.2	Guidelines - Aims	2
2	Overview: Requirements of the Legislation	3
2.1	What is a dam failure?	3
2.2	What is a dam failure impact assessment?	3
2.3	What is a failure impact rating?	3
2.4	Who certifies a dam failure impact assessment as complete and accurate?	4
2.5	How do you do a dam failure impact assessment?	4
	2.5.1 Two-dimensional flow analysis	4
	2.5.2 Simplified Assessment	4
	2.5.3 Comprehensive Assessment	4
2.6	Do I need to undertake an initial dam failure impact assessment to obtain a failure impact rating?	5
2.7	Does my dam exceed the height and storage criteria specified in the <i>Water Act 2000</i> ?	5
2.8	Do all dams that exceed the height and storage criteria specified in the <i>Water Act 2000</i> require an initial dam failure impact assessment?	5
2.9	Do I need to undertake a dam failure impact assessment if I want to increase the storage capacity of my dam?	5
2.10	What if I receive a notice from the chief executive to undertake a dam failure impact assessment?	6
2.11	Who pays for dam failure impact assessments?	6
2.12	Who submits the dam failure impact assessment?	6
2.13	To whom does the owner submit the dam failure impact assessment?	6
2.14	When do I need to submit my initial dam failure impact assessment for my existing dam if my dam exceeds the specified height and storage criteria?	6
2.15	How often do I need to undertake a dam failure impact assessment once I have my initial failure impact rating?	7
2.16	When must I submit my dam failure impact assessment if I plan to construct a new dam that exceeds the height and storage criteria specified in the <i>Water Act 2000</i> ?	7
2.17	When must I submit my dam failure impact assessment if I plan to carry out works that increase the storage capacity of my referable dam by more than 10%?	7
2.18	When must I submit my failure impact assessment if I receive a notice from the chief executive requiring me to undertake a dam failure impact assessment?	8
2.19	What details must be included in the written dam failure impact assessment?	8
2.20	What happens to my dam failure impact assessment once it is submitted?	8
2.21	What happens if I don't do a dam failure impact assessment as required?	9
2.22	What happens to my waterworks licence issued under the <i>Water Resources Act 1989</i> ?	9
3	Responsibilities	13
3.1	Responsibility of the owner	13
3.2	Responsibility of the certifying engineer	13

3.3	Responsibility of the chief executive	14
3.4	Responsibilities under the <i>Integrated Planning Act 1997</i>	15
4	Methodology	17
4.1	Introduction	17
4.2	Dam Site Inspection	17
4.3	Data Collection	17
4.3.1	General Information	18
4.3.2	Dam and storage information	18
4.3.3	Topographic information	18
4.3.4	Hydrographic data	19
4.3.5	Hydrologic data	20
4.3.6	Downstream community information	20
4.4	Determination of failure impact zone (see also analytical techniques)	20
4.5	Population at risk	21
4.6	Accuracy of population at risk calculations	22
4.7	Analytical Techniques	23
4.7.1	Introduction	23
4.7.2	Two-dimensional flow analysis	23
4.7.3	Simplified assessment	25
4.7.4	Comprehensive assessment	26
4.7.5	Dam breach mechanisms for two-dimensional flow analyses and comprehensive assessments	28
4.7.6	Two or more dams on the same watercourse	33
4.7.7	Other failure events	33
4.8	Periodic Re-Assessment Of Failure Impact Rating	33
5	Summary of written dam failure assessment requirements	35
6	Bibliography	37
6.1	Papers	37
6.2	Software	37
7	Appendices	39
7.1	Appendix A - Default Populations	39
7.2	Appendix B - Definitions	41
