

**Attachment 5—Resource operations plan water supply scheme zones (supplemented water)**

**Attachment 5(A)—Upper Condamine Water Supply Scheme zones**

**Table 1—Description of zones for the Upper Condamine Water Supply Scheme**

<b>Zone</b>	<b>Location</b>	<b>AMTD (km)</b>
UCS-01	Sandy Creek – from the upstream extent of the ponded area of Leslie Dam to the confluence with the Condamine River	20.0 – 0.0 km
UCS-02	Condamine River – from the confluence of Sandy Creek downstream to Talgai Weir	1077.9 – 1029.3 km
UCS-03	North Branch Condamine River – from the Yarramalong Diversion pipeline outlet downstream to the end of the supplemented section	97.0 – 10.0 km
UCS-04	Condamine River – from Talgai Weir downstream to Cecil Plains Weir	1029.3 – 891.1 km

Map 1—Upper Condamine Water Supply Scheme zones

## Attachment 5(B)—Chinchilla Weir Water Supply Scheme zones

**Table 1—Description of zones for the Chinchilla Weir Water Supply Scheme**

<b>Zone</b>	<b>Location</b>	<b>AMTD (km)</b>
CBS-01	Condamine River – from the upstream extent of Chinchilla Weir Water Supply Scheme downstream to Chinchilla Weir	743.6 – 697.0 km
CBS-02	Condamine River – from Chinchilla Weir downstream to confluence of Charleys Creek	697.0 – 690.1 km
CBS-03	Condamine River – from confluence of Charleys Creek downstream to confluence of Wambo Creek	660.8 – 643.7 km
CBS-04	Condamine River – from confluence of Wambo Creek downstream to the downstream extent of the Chinchilla Weir Water Supply Scheme.	671.0 – 643.7 km

Map 1—Chinchilla Weir Water Supply Scheme zones
